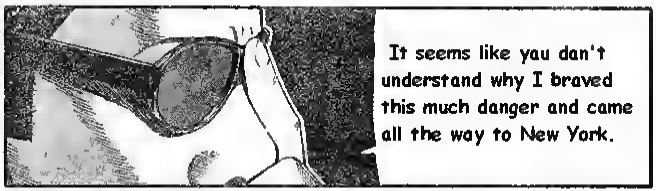
Eddie had said "The next album will be a dauble CD"...
Just after finishing the 3rd album, he started writing songs.
I wander where that overflawing pawer af imaginatian came from...
Even thaugh he was a genuine artist, he'd always use his cheap acaustic guitar to compose

But ta think... That he left this much of an experimental song on record already.
?
Is this all?
I asked if this is all Kevin.

I'm just saying this, but did you think that you'd be able to get more than this?
More than "DEMO?"
W-What do you mean?



It seems like you don't understand why I braved this much danger and came all the way to New York.

SFX: SU

THE WEST

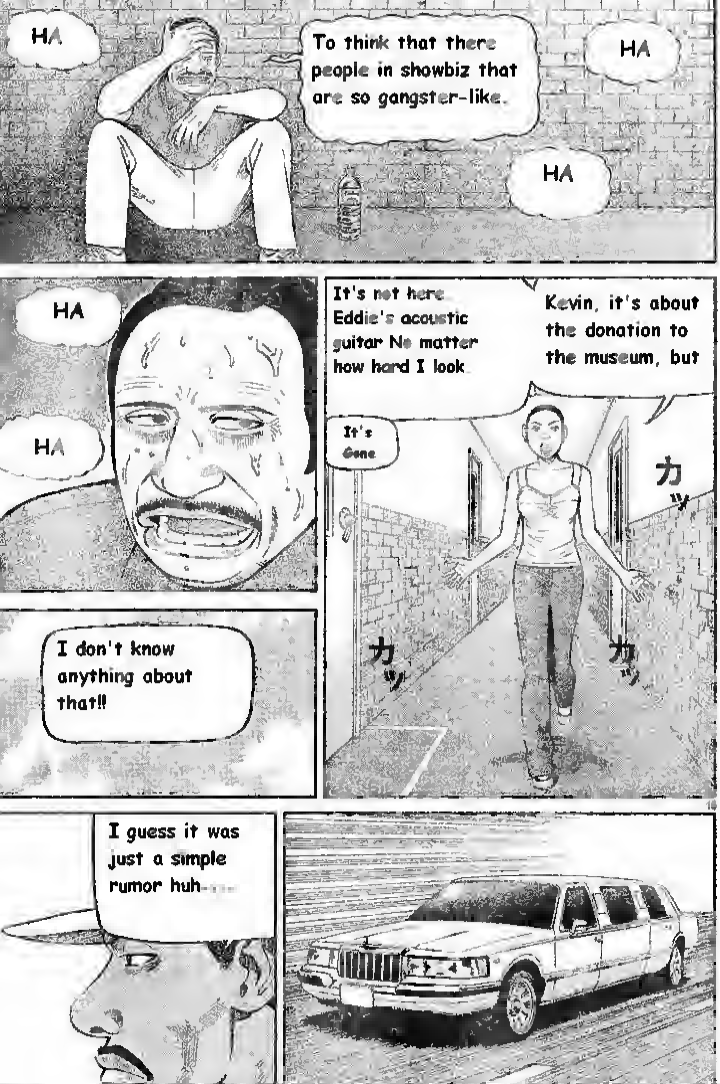
You'll be making on enemy of Leon Sykes and Victor Slater
Don't hide it.
Even though it's an ambitious experimental creation, it's not the kind of song that would be a hit
"Fast Line Drive"
"Anchor"...Do you understand what I'm saying?
I-In short, a hit song that will sell like crazy?
.....
If it's possible, more so than the song you gave me.

"Let it Be",
"Light My Fire",
"Smells Like Teen Spirit".
You mean a hit song that defines history.

Let me tell you how hard I worked just to find this song!!

I definitely need it this summer.
A song that will be engraved in the minds of the audience in a second

There's no way anything more than this will turn up.
Since I'm saying it, there's no mistake.



HA
To think that there people in showbiz that are so gangster-like.

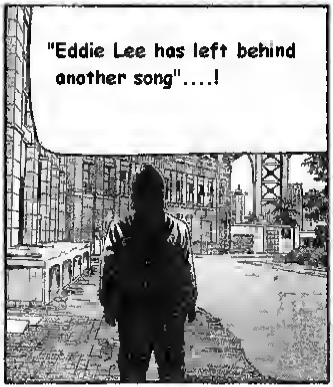
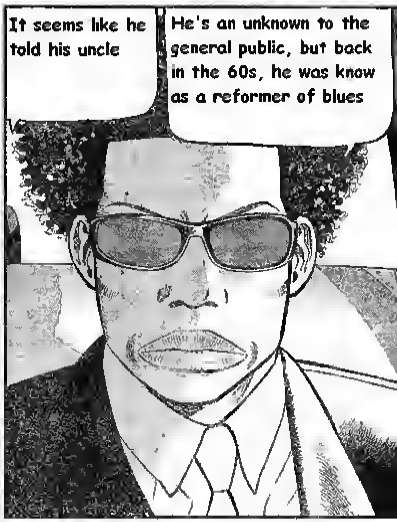
I don't know anything about that!!
I guess it was just a simple rumor huh----

There's a man nomed Willey Renoir.



"Eddie Lee has left behind another song"....!



It seems like he told his uncle
He's an unknown to the general public, but back in the 60s, he was know as a reformer of blues

"I heard it from someone intimate with Eddie Lee"!

Back in the 60s, he hung out with a lot of musicians
He's a man that's unusually well known in certain rock musician circles
Willey Reniar....Never heard of him
Then isn't asking that guy the fastest way...
It's been more than 20 years since his uncle's seen him.
and only to borrow cash at that
Divorced 3 times, drug overdose, blindness...
I wonder if this information is even accurate
フウ
After that, who knows if he's dead or alive.

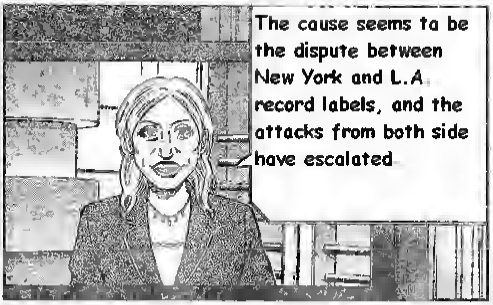
Mr. Lean Sykes was shot at during his stay in New Yark....
HOTEL INTE

FUCK....
There was no danger to his life, but his entaurage sustained injuries.

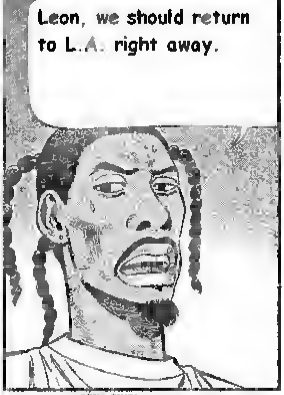


The cause seems to be the dispute between New York and L.A record labels, and the attacks from both side have escalated

Someday I'll definitely kill all those New York fuckers.

Why were my movements exposed...

We need to thoroughly investigate those involved with Eddie Lee at a dizzying pitch
There isn't much time until The Avalon Festival



Leon, we should return to L.A. right away.

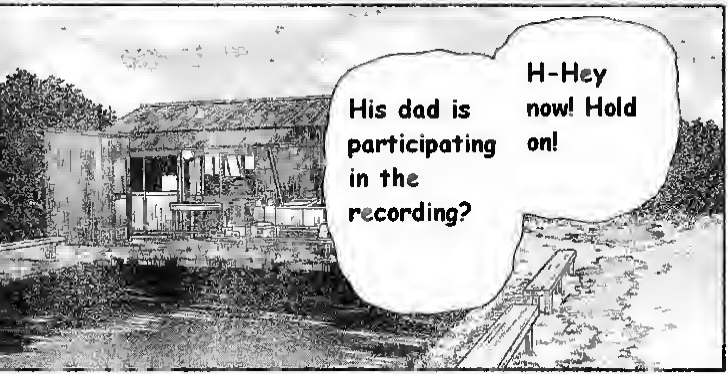
New York?

It's for the recording of Matt's solo album!

EH?

Norman's dad is a famous sound engineer.



H-Hey now! Hold on!
His dad is participating in the recording?

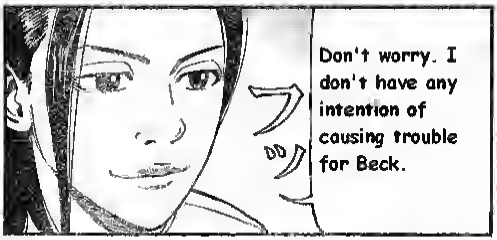
and that's how he heard about it.
Matt's agent wanted to know how to get in touch with me.
You mean...

There are not
There are studio musicians who are better than you just laying around
There are other people

I'm probably going to have to do something like an audition...

Could it be you guys are worried?...

If you pass that?



Don't worry. I don't have any intention of causing trouble for Beck.

I'm sure there's been a ton of people who've been called before me
They started recording half a year ago and it's been such a mess they haven't even been able to record a single song

I'm going on the next flight out.

Pete formerly of Cold Turkey was recording with matt?

They didn't seem to able to get along with Matt to well.
That's because all of them were fired.

Amongst those guys, they called on Ryuusuke?

Taira-kun, when's the next time we'll go to the studio to practice?
